**Abstract:**

Now-a-days specialization has become pronounced and the man is bewildered in his choice by the number and varieties of occupations and the suddenness which with new demands are made by the public and new occupations spring into being. To those who cannot see unaided or who see dimly, the revelation of Karma through Astrology comes as an aid to clarify the vision by pointing the strong or weak points in the horoscope of an individual whose choice of occupation is not yet ascertained.

**Introduction:**

We are going to deal the course of this articles

- The nature of the occupation indicated by the horoscope,
- The probable period when the native would settle in his life,
- Fortunate and unfortunate periods in one’s professional career,
- Retirement from service or from active work if in business

Let us see the above briefly. We are all know that the 10<sup>th</sup> house indicates profession The strongest planet (10<sup>th</sup> Lord) as reckoned from Lagna, the Sun, the Moon in Rasi, Navamsa or Drekkana will have a strong bearing on the native’s occupation. For the purpose of analysis, we may classify the various occupations as follows:

- Merchants and others engaged in ordinary business, industries, etc.,
- Those doing hard physical work,
- Intellectual or Mental workers.

We cannot draw a line of distinction between the divisions we have given above, because, a writer, whose main work is intellectual, may spend a part of his time, composing and printing which is purely physical work and hence in his occupation there comes into play both intellectual and physical energies. There are instances that certain people suddenly change their careers from teaching to business. This is explainable by the fact that there is a special stimulus to certain qualities at certain ages. We are going to deal with all these in detail. It must be noted that there will always be some intimate connection between the 10<sup>th</sup> and 2<sup>nd</sup> houses, for profession is always related to money and money always depends upon one’s means of livelihood. For example,

Kethu		Sun Moon Mer.	Venus
Asc. Jupiter	Rasi Male		
Saturn	28.5.1903 1.19AM Tirunelveli		
			Mars Rahu

Mars	Asc.	Venus Sun	Jupiter Saturn
	Navamsam		Rahu
Kethu			Moon Mer.

Balance Dasa Mars 6 Years 8 Months 5 days

In the above chart, 10<sup>th</sup> from Lagna is Scorpio and its lord Mars in the 8<sup>th</sup> with Rahu and hence it is not good. From the Moon however the 10<sup>th</sup> lord is in the 9<sup>th</sup> in his own house. The moon is exalted. Hence, the Chandra Lagna is more powerful. Jupiter is in the 10<sup>th</sup>, which happens to be Aquaries on airy (Vargottama) sign. As Aquaries is an airy sign it indicates journalist, writer and the like. Saturn is connected with printing, machinery and the like. Jupiter is in the 10<sup>th</sup>. Keen intellect and a public man, Lord of the 2<sup>nd</sup> from Lagna is Jupiter and from the Moon, Mercury is lord of wealth. As Jupiter’s influence is predominant and that of Mercury secondary, the native is not actually engaged in journalism but is connected with it in a passive capacity. The Sun occupies an inimical sign and the 10<sup>th</sup> has nothing to do with the luminaries so that Government employment is totally ruled out. The native suffered certain reverses which curtailed his emoluments in the sub-period of the Moon within the major period of Jupiter, Guru Dasa, consistent with the

presence of Guru in the 10<sup>th</sup>, advanced the career of the subject. As the Moon owns the 6<sup>th</sup> and is with Mercury (Lord of 8), the native suffered a setback. Added to these mark, the transit positions of planets which were current. Saturn was in the 12<sup>th</sup>. Swimming up, Jupiter is prominent, Saturn and Mercury are secondary. Aquaries is an airy sign. All these factors have conferred on the native a journalist career.

**Government Related:**

The moon is a royal planet and it bestows on the native professions connected with the government devoid of executive responsibility. The Moon gives imagination – the faculty that gives us the ability to understand the meaning of words. One who has the Moon powerfully situated may become a writer. The Moon rules over water, women, cultivation, seamen, travelling agents, navigation, pearls, milk, gems, vegetation, juicy articles, fishermen, salt, water places, etc. One may follow a profession connected with any one of the above. A native of Moon – that is one who has the Moon strongly disposed in reference to the 10<sup>th</sup> cannot readily find openings in the world of practical affairs. When the Moon is connected anyway with Mars, the native gets the martian spirit which renders him fit for certain occupations. Otherwise he would not have been suitable. He can become a good historian, especially of the wars of various nations, and he can write of expeditions of discovery. He can become a good journalist and prepare excellent articles for news papers. He can also prove successful as a war correspondent. Engineering will also be suitable to him.

When the Moon is connected with Mercury, in reference to the house of profession one of the outstanding qualifications is the subject’s talent for law to achieve success in which is required imagination to think out almost impossible points of contention and arguments to support them. The subject will also have the gift of writing. The subject can be successful as editor of newspapers, magazines and periodicals. He will be able to prepare articles on medical subjects. Book publishing and selling will also be highly useful. Business in general will be suitable. Other profession indicated by such a combinations are jewellery, advertising and dress making. If there is connection between the Moon and Jupiter, it is under the name of Gajakesari Yoga. If combinations of the these two planets exist in the 10<sup>th</sup> house, the Yoga will indeed be most powerful. According to ancient interpretations the combination makes one a builder of towns and villages, Municipal Mayors and it gives a profession of honour – Trust, responsibility, leadership and the like. One may become a religious head, priest or writer on religious subjects. As the Moon is royal planet, a profession connected with Government is not improbable. One can also specialize as a writer on Astrology, History, or as a political writer, book selling and advertising will also be quite suitable. For Example,

	Rahu		Venus		Moon	Saturn		
	Rasi Male 8.8.1948 4.30 PM Madurai		Sun Mer		Jupiter Kethu	Navamsam		Mars
			Saturn		Venus Sun			Ragu
Asc.	Jupiter	Kethu	Moon Mars		Mercury		Asc.	

Balance Dasa Sun 0 Yrs. 9 Months 23 days

In the above Chart, Moon is in 10<sup>th</sup> Bava with Mars. Moon is Parivarthana (exchange) with Mercury which is in 8<sup>th</sup> place. Since the Moon is in the 10<sup>th</sup> place – he was holding a responsibility post in Central Government undertaking company and later on he was in full swing in Astrology. In Astrology he wrote many books. Moreover Jupiter is aspecting in trinal Mercury and also Cancer, he became a Teacher and Guide to many astrologers in Tamil Nadu. Now we can take Venus and the lively professions it gives when connected with the Moon with reference to the 10<sup>th</sup> House. The subject can aquire great talent as a musician, composer and musical writer. This combination is also good for poetry, dramatists, actors, and actresses are likely to have such a combination.

If the above combination is blemished by Mars, Saturn or Rahu, the native becomes mean, sinful, vulgar licentious and a libertine. Saturn is the harbinger of sorrow. In any profession that one may adopt, Saturn gives worry, care, anxiety and responsibility. One may become head of a factory, gang maistry, a labour leader, mining engineer and the like. Unless, either Jupiter or Venus comes to rescue by way of aspect or association, the native is apt to be untruthful. When Sun is connected with the 10<sup>th</sup> Bava, the native will get a profession according to the Karaka of Sun like politicians, Government employees, public services, etc. Mars is a planet that rules over fire, explosions, factories, engineering works, military maneuvers, army, heir apparent, warriors, litigation, fortifications, canon, courage, chemists, druggist, gold, copper, surgeons, dentists, barbers, butchers, iron, steel and chemical laboratories. When Mars is connected with Venus the native can make headway in politics and business and can also become a druggist or jeweller and can also trade in musical instruments, furniture, merchandise, etc. If Venus is not afflicted, the individual can become a musician, artist, doctor, dancer, etc.

If Mars is connected with Saturn – material success cannot be achieved without much struggle. The aggressive nature of Mars will be somewhat tempered by the Moon's aspect or association. The native can develop adaptability for many avocations. The Mars-Moon combination goes under the name of Chandramangala Yoga and it is held to be high beneficial. One with this combination can be successful as a writer, an editor, a reporter, a correspondent, publisher, author, etc.

**Conclusion:**

Some of the critical combinations are analysed. In normal course, the planets connected with 10<sup>th</sup> Bava and 10<sup>th</sup> Lord are the indicators of one's Karma for their profession.
